

New generation tape for Waterborne & Solvent paint

Extra Soft **La Rouge**
Medium Soft **Le Bleu**

ProBand Fineline

La Rouge and Le Bleu ProBand is a new generation fineline tape, specifically designed for use with all waterborne paint systems, including airbrush paints.

The tape is extremely thin with low edge (no paint buildup) and "easy release" from painted surface (no adhesive transfer, residue or paint delamination).

La Rouge and Le Bleu also performs very well with low VOC, solvent based paints.

Extra Soft	#48475	1/16" x 60yd	#48480	1/8" x 60yd
	#48485	1/4" x 60yd	#48490	1/2" x 60yd
Medium Soft	#48675	1/16" x 60yd	#48680	1/8" x 60yd
	#48685	1/4" x 60yd	#48690	1/2" x 60yd

Tech Tips

1. Pull enough tape off the roll to work with, do not move your guide finger while unrolling.
(This will keep the tape's width consistent without over-stretching.)
2. In tight turns, finesse it through the curves, let it flow by itself.
(It will easily wrap around the edges and contours.)

3. Be careful not to "nick the edges" while laying out design. When cutting though, apply light force.
(It is softer than other fineline tapes.)
4. Always seal the edges.
(This will prevent paint seepage, bleed through.)
5. Apply the tape at ambient (68°-78°F / 21°-24°C) temperature.
(Extreme cold will shrink it, extreme heat will expand it.)

Benefits

1. Exceptional and consistent finish. Ideal for two toning, color separation, back masking.
(Clean lines, no edges, no paint buildup.)
2. Improved shop's productivity and profit.
(Eliminate redo's, save on labor & materials.)
